

Water Well Screening Event

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

The “Well Informed” TWON program is an educational program that gives well owners the opportunity to have their well water samples screened for common contaminants including fecal coliform, bacteria, nitrates and high salinity. The screening of the water samples is followed by a 1-hour explanation of the results, water well protection practices and focuses on wellhead protection and recommendations for remediating well contamination.

Well Informed Screening - May 4 & 5

Brewster County Extension Office, 2101 FM 1703, Alpine, (432) 837-6207
Brewster County Groundwater Conservation District (GCD) Office, 203 N. 7th St.,
